# THE ULTIMATE STRESS RELIEVER

## THE FUN DESKTOP TOY TO HELP YOU FOCUS!

*Simple to Use!*

Its Simple! Fidget cube has six sides, each side features something to fidget with-

**Click.**  
No need to click that pen anymore. You'll find 3 clicker buttons and 2 silenced buttons on this side design to satisfy the clicker in each of us.

**Breathe.**  
Say goodbye to stress. The design of this face is inspired by traditional worry stones, tools used to reduce anxiety when rubbed.

**Glide.**  
You don't have to be a gamer to enjoy the unusually satisfying gliding action of this joystick.

**Roll.**  
The gears and ball on this side are all about rolling movements (with the ball sporting a built-in click feature).

**Flip.**  
Pivot this switch back and forth gently if you're looking to fidget silently, or quickly for a more audible click.

**Spin.**  
Looking for a circular fidget? Take this dial for a spin.

## HIGH QUALITY

Premium soft rubber feel  
Solid component feedback
